

OVER-SUBSCRIBE LOAN \$500,000,000

**LIBERTY BONDS**  
**SOLD ABOVE PAR**  
Tremendous Success of First American War Loan Shown in Closing Hours Today.  
**MAY REACH THREE BILLION**

[By Associated Press Leased Wire.]  
The liberty loan has been tremendously oversubscribed. When the books closed at noon treasury officials estimated that the total would reach at least \$2,500,000,000 and might reach \$3,000,000,000. The federal reserve district of the Kansas City and Kansas City reserve districts have exceeded the minimum allotment. Reports from these two districts were slow in coming in. With thousands of banks to be heard from in two districts, however, it seemed likely that the minimum allotment would be reached in each case.

Reports by telephone and telegraph from every section of the country told of an avalanche of small subscriptions at the last moment. Scores of small investors were standing in line at hundreds of banks throughout the country during the final hour. The small subscriber apparently had responded with an enthusiasm that exceeded the most sanguinary hopes of officials.

**Eleventh Hour Landslide.**  
Swelling the huge total by millions came the belated subscriptions of banks that held back till the last moment. The clerical forces of virtually every reserve bank were practically buried under a landslide of eleventh hour subscriptions.

Because of this situation the exact total subscription may not be known for many hours. The full magnitude of the country's response even may not be measured for several days. Thousands of belated subscriptions. It is feared may not reach the reserve banks till after the deadline of noon, standard bank time, and these must be included in making up the full totals showing the nation's response.

**Millions by Telegraph.**  
Millions of dollars, it was estimated, were transferred by telegraph from national and state banks and trust companies on behalf of their customers to the federal reserve banks. The last minute response of the small investor as the banks had forwarded the bulk of earlier subscriptions by mail.

**Chicago Away Ahead.**  
Chicago, June 15.—Three hundred million dollars, 40 million more than the quota.  
This was the official estimate of the subscriptions of the seventh (ago) federal reserve bank district when the liberty loan books closed at noon today.

**War Situation**  
The British campaign in Belgium gives signs of developing into one of the most important of the war. The Germans apparently are unable to resist the pressure being constantly applied to them and are being forced back at a comparatively rapid rate.

Today brings the announcement of another considerable advance by the British in this area. They attacked last night in the region south and east of Messines and on both sides of the Ypres-Comines canal, gaining all their objectives and capturing one big gun and seven machine guns together with 150 prisoners.

The British line in the British offensive movement extends to a distance of about seven miles from the village of Klein Zillebeke south to the river Waas. Last night's attack, the culmination of constant pressure yielded General Plumer's troops the German front trenches between the Waas and the Lys, besides additional ground more to the north, in the official statement issued.

Signs of a probable further retreat of the Germans are not wanting. Correspondents have reported the withdrawal of the German big guns in the area east and southeast of Messines to the extreme limit of their range.

**TO CITE ROAD HEADS FOR CONTEMPT SOON**  
Cases Arising From Increased Passenger Rates in Illinois Come Up Monday.

Wilkinson and Buckingham Home From Washington With Orders to Prosecute.  
[By Associated Press Leased Wire.]  
Springfield, Ill., June 15.—Railroads springing Chicago which raised the passenger rates in violation of an injunction in the superior court against such an increase will be cited for contempt of court Monday, it was announced here today on the return of Assistant Attorney-General Wilkinson and Buckingham from Washington with orders to prosecute.

**Action Necessary.**  
Action of the attorney-general of Illinois is made necessary, it was declared, because of the failure of the interstate commerce commission to vacate an order permitting Illinois roads to put into effect a 2.4 cent rate before the question at issue has been decided by the United States supreme court where arguments will be heard in December on an appeal from the federal court in Cook county.

**FLAG PICTURES 3 GREAT FIGHTS**  
Striving Against British Tyranny, Slavery, German Autocracy, Rev. Alden Says.

**STIRS ELK FLAG DAY CROWD**  
The three great fights for mankind made by America—the winning of a war against British tyranny, the winning of a war against slavery and the struggle to emancipate all civilized nations from German autocracy, including Germany itself—are represented in the colors of the American flag, the Rev. C. A. Alden, state chaplain of the Illinois Elks' association, said last night in an address at the Elks' flag day exercises in the People's church. "The Germans in America came here to get away from the thing that makes us fight Germany now," Mr. Alden said. "They escaped by emigration. But America cannot escape by emigration. She has no place to emigrate to except the earth. The German too is our brother. He is our brother in arms. The things for which America has fought in other days have found no better soldiers on our soil than those who either directly or indirectly came from the German fatherland."

**Flag Ever First With Elks.**  
"Brothers of the Benevolent and Protective Order of Elks, members of other co-operating organizations, and fellow citizens. And in Illinois that phrase includes the women as well as the men. For over twenty years I have been a supporter of equal suffrage. I am convinced that every man should turn the entire government system over to the women they could not make any mistake for which they could not find a male precedent. Government runs better where we remember the inextinguishable flag of freedom and the high pitch of enthusiasm by its throes giving Americans."

**Three Great Fights.**  
In the present crisis the fullness of its history and the glory of its prospect surge upon our minds. It means that there are some things in America that are better than those in Germany. We are now proposing to put these things on the international market and we have an idea that the business in them will follow the flag. That flag has been on the firing line many times. Americans have always fought well when they have had to fight. But America's greatest gift to the world has not been in her fighting. Her triumphs of peace have been a larger factor in the world's history than all her victories of war. She has taught the world that men can live without kings. Now she will help teach the world that men cannot live safely with kings."

**Individual German Our Brother.**  
"First upon our altar, Elks have adopted the flag as emblematic of the cardinal principle of our order, charity. The faults of our brothers we write upon the tablets of love and memory. This makes our fraternal conception of the flag especially emblematic of the spirit of America in this conflict. We have no song of hate upon our lips. The German is our brother also. He has been our brother in arms. The things for which America has fought in other days have found no better soldiers on our soil than those who either directly or indirectly came from the German fatherland."

**TO HOLD SHOW OF USED AUTOS**  
First Display of the Kind to Be Staged at the Armory June 21, 22, 23.

Aurora's first used automobile show will be held at the Aurora armory June 21, 22 and 23, and will be under the auspices of the Aurora Automobile Trade Association. The show will be confined to used cars and its object will be to clear of the number of cars of this type which are in the hands of local dealers. Some extraordinary price values are promised and it is more than likely that a number of automobiles will be staged as a diversion for spectators.

**Display Used Cars.**  
The plan was broached at a recent meeting of the local trade association, and a number of plans to meet the used car situation have been offered to the association by various members and individuals, the special show idea seemed to offer the greatest possibility for success. Virtually all the dealers in Aurora will show the greater part of their stocks of used cars at the exhibition, and it is believed that with the special price inducements which will be made that most of the cars will be sold at that time. As each dealer is limited to three good exhibits and it is almost certain that all will avail themselves of the maximum, the total number of cars on display at one time will be more than 60.

**List of Exhibitors.**  
The following is the official list of exhibitors:  
Aurora Motor company (C. H. Solisburg).  
A. C. Berthold company; Cadillac; Coates Garage; Hudson.  
Central Garage; Buick.  
Kane County Auto Sales company; Oldsmobile.

**BURGLAR SENTENCED**  
[By Associated Press Leased Wire.]  
Chicago, June 15.—John C. Smith will start serving a term of from one to 14 years in the reformatory at Pontiac, Ill., today, for committing, according to his confession, from "one to 25 burglaries." "Smith" refused to reveal his right name as he did not wish to bring sorrow and disgrace to his family. His father and sister, unknown to the court, were present at the trial yesterday, but their identity was not revealed. "Smith's" burglaries are said to have totaled in the neighborhood of \$30,000. He is a graduate of a Chicago high school and attended the state university at Urbana.

**The War Spirit**  
William Dally and Joe Groshans, stove works employees, who joined the navy last Monday, are quartered on the training ship Commodore, in the lake at the foot of Randolph street in Chicago. "We are with the finest bunch of fellows I ever met and are getting along fine," Dally wrote on a postal card received today. He wants his friends, especially the Acorn mates, to write, addressing the S. S. Commodore, foot of Randolph street, Chicago. Dally was declared by the examining physician one of the most perfectly built boys who has joined the navy.

John Christenson of Farnsworth avenue was unable to pass the examination for the army yesterday.

Bert Handie, who gave his address as Philadelphia, enlisted for the army last night with Corporal Polish. He was a member of the Sells-Floto shows, and exempt from draft, being 35 years old, but he claimed he wanted to fight.

The following letter was received by Corporal Polish this morning from Captain Kenney, in charge of the Chicago district army recruiting:

"Applicants for enlistment in the British and Canadian military forces are to report at the Chicago office. Married men are accepted in this service."

James Paul, Francis Kirby, and Arthur Falke, of Aurora, and Paul Whitford of Waterman, are today east bound on a special train from Phoenix, Ariz. The boys are members of the Sixth field artillery. "We are going to France and will write when we get to — from where we are to —"

Paul wrote to his parents, Mr. and Mrs. James R. Paul, 311 Oak avenue. The four boys enlisted here in April and left with the first delegation of West High school boys.

Two chum employed by the Burlington railroad as firemen signed up for the navy here today. Both want to war together. They are Mark Leo Guilfoyle, 19 years old and Ronald Leo Curran, 22 years old. The former gave Warsaw, Kan., as his home and the latter Alhambra, Cal. The two went to Chicago today to take their final physical examinations after passing the preliminary examinations in Aurora.

**AURORA'S LOAN ABOVE \$800,000**  
Eleventh Hour Rush to Buy Liberty Bonds Swamps All Local Banks.

**BANKS ALONE TAKE \$765,000**  
Aurora will take over \$800,000 of liberty loan bonds it was decided this afternoon as eleventh hour customers made a belated rush on banks. The allotment for the morning, the last half day in which the bonds could be subscribed for forced banks to put on extra forces of clerks. The First National bank which first subscribed for \$100,000 in recent days increased its order to \$125,000 and then to \$150,000, hastened to get \$25,000 more this afternoon bringing its total to \$175,000 the same amount of the Old Second National and the Merchants National banks.

At the German-American National bank, last hour subscribers, fearing that the subscription might be closed before they got bonds, made frantic requests over the telephone that bonds be held for them. Peter Kien, president, said that it would probably be necessary to order another block of \$25,000.

**Banks Take \$765,000.**  
At least \$765,000 has been subscribed for by local banks for distribution to customers as follows:  
Old Second National ..... \$175,000  
Merchants' National ..... 125,000  
First National ..... 125,000  
Aurora National ..... 100,000  
German-American ..... 100,000  
Aurora Trust & Savings ..... 15,000

All local banks are hard at work checking subscriptions and were unable to give the total number of subscribers today. The number is about 3,000 it is estimated.

**Some Factories Not Listed Yet.**  
Some factory reports are not yet in and others who have been already reported have increased their subscriptions. The Richards-Wilcox Manufacturing company, which had \$14,000 this morning increased \$1,000 during the course of the morning, bringing the total to \$15,000.

The Rev. A. M. Loth, pastor of St. Paul's Lutheran church, made a personal campaign among Americans of German origin to get orders, subscriptions at the German-American National bank took such a jump this morning.

Employees of the Western United Gas & Electric company took \$9,000, distributed among about 125 employees.

**WOMEN FOR MEN IN PLENTY, COURT SAYS**  
There are enough women in the world so every man can have one. If you feel like fighting go out and enlist in the army. This Justice Cortez Dutton told two men today. He spoke explosively and with a brandishing of arms. The men had had a quarrel and then a fight about a feminine person. She was not named, but as described by both men, Joseph Nolsand and J. A. A. Stromberg, she is highly desirable. The justice was very obviously vexed with men's signs for a lady love.

He fined Nolsand \$10 and costs because he hit Stromberg, who hadn't done a thing to him except steal his heart's desire's affections. Stromberg's claim that he had been struck on the back by his face. It looked all that he said.

"Don't you ever come into this court again with stories of this kind," the justice said finally. "This is a warning."

There were 22 votes cast for and 22 against the bill. Senator Clark, one of the supporters of the measure, gave notice that he would ask his reconsideration tomorrow.

## SAYS FEW IN U. S. SEE WAR'S DANGER

Less Than 1 per Cent of America  
Realizes Nation Is Fighting  
for Very Existence.

Need Something to Arouse Us to  
Sense of Sacrifice, Says H. P.  
Davidson of Red Cross.

(By Associated Press Leased Wire.)  
Washington, June 15.—Sacrifice  
which the war will bring is needed  
by America to lift its people to the  
spiritual exaltation developed in  
European wars of the Red Cross  
war council, told the Washington  
chapter of the Red Cross society.  
"I wish for no ill," he said, "but I  
hope and pray that whatever may be  
needed to arouse us to a sense of  
sacrifice and cleanse us from our  
selfishness will come to us."

Mr. Davidson expressed doubt if  
more than 1 per cent of Americans  
realize that we are today not only  
fighting for the principles upon  
which our republic was founded, but  
for our very existence. People of  
England and France also were slow  
to change their ideals early in the  
war, he said, but now "it seems as if  
their affection and regard for man-  
kind had immeasurably increased.  
They seem to be without malice or  
design, envy or jealousy, without  
sordid ambition to be living on a  
higher and better plane. Suffering  
with their terrible sorrow and suffering  
they seem to be stronger and surer  
and more content to meet whatever  
may be given them to meet."

Purified by Fire.  
"The process of fire which has thus  
purified them has been for our ac-  
count as well as their own."  
"I hope you will not think me an  
idealist, I was never more practical  
in my thought. It is perhaps an ap-  
preciation of this that has caused me  
to go to the Red Cross."

"For I firmly believe that thru the  
Red Cross we cannot only render a  
service to the people of our allies  
to those who are today fighting for  
us—but we can bring forcefully to  
our own people a sense both of their  
obligation and of their opportunity,  
and I am optimistic enough to believe  
that the men and women of this  
country will in a not far distant  
day, rejoice in sacrifice—in real sac-  
rifice—and demand that the Red Cross  
shall carry to the peoples then liv-  
ing of all our allies the heartfelt ap-  
preciation of what they have done  
for us, and express such appreciation  
by every possible aid and support  
within their power to send."

## SAY U. S. ENTERS WAR TO AVERT BANKRUPTCY

(By Associated Press Leased Wire.)  
Berlin, June 14, via London, June  
15.—Under the caption, "submarine  
warfare and war costs," the North  
German Gazette has the following to  
say:

"In none of the warring countries  
has the question of war costs at-  
tracted that degree of attention one  
was previously led to believe it  
would. One is almost inclined to as-  
sert that the higher the war costs  
mount the less attention they arouse  
and Lloyd George's word concerning  
the last silver bullets probably will  
never come true."

"The entrance of the United States  
into the war is accounted for in no  
small degree by the circumstances  
that they long since became the  
creditors of our enemies, whose  
bankruptcy they saw approaching  
and desired to avert as far as possi-  
ble."

## QUITS IRELAND TO COME TO AMERICA TO ENLIST

Washington, June 15.—There's a  
little spot in Ireland that Michael  
McNamara had in his "mould's eye"  
for a long time. He was, in fact,  
all that time Michael was obeying  
orders, drilling, campaigning, and  
doing the hundred-and-one things  
that fall to the lot of the American  
marine.

Michael finished his time, retir-  
ing with the rank of "Sergeant Major,  
no less," and went back to that little  
spot in County Mayo.  
Then came our participation in the  
war. Michael stayed retired? He  
did not! He came right back to the  
S. S. St. Louis, paying his own  
fare, and went directly to the U. S.  
marine corps headquarters to volun-  
teer his services.

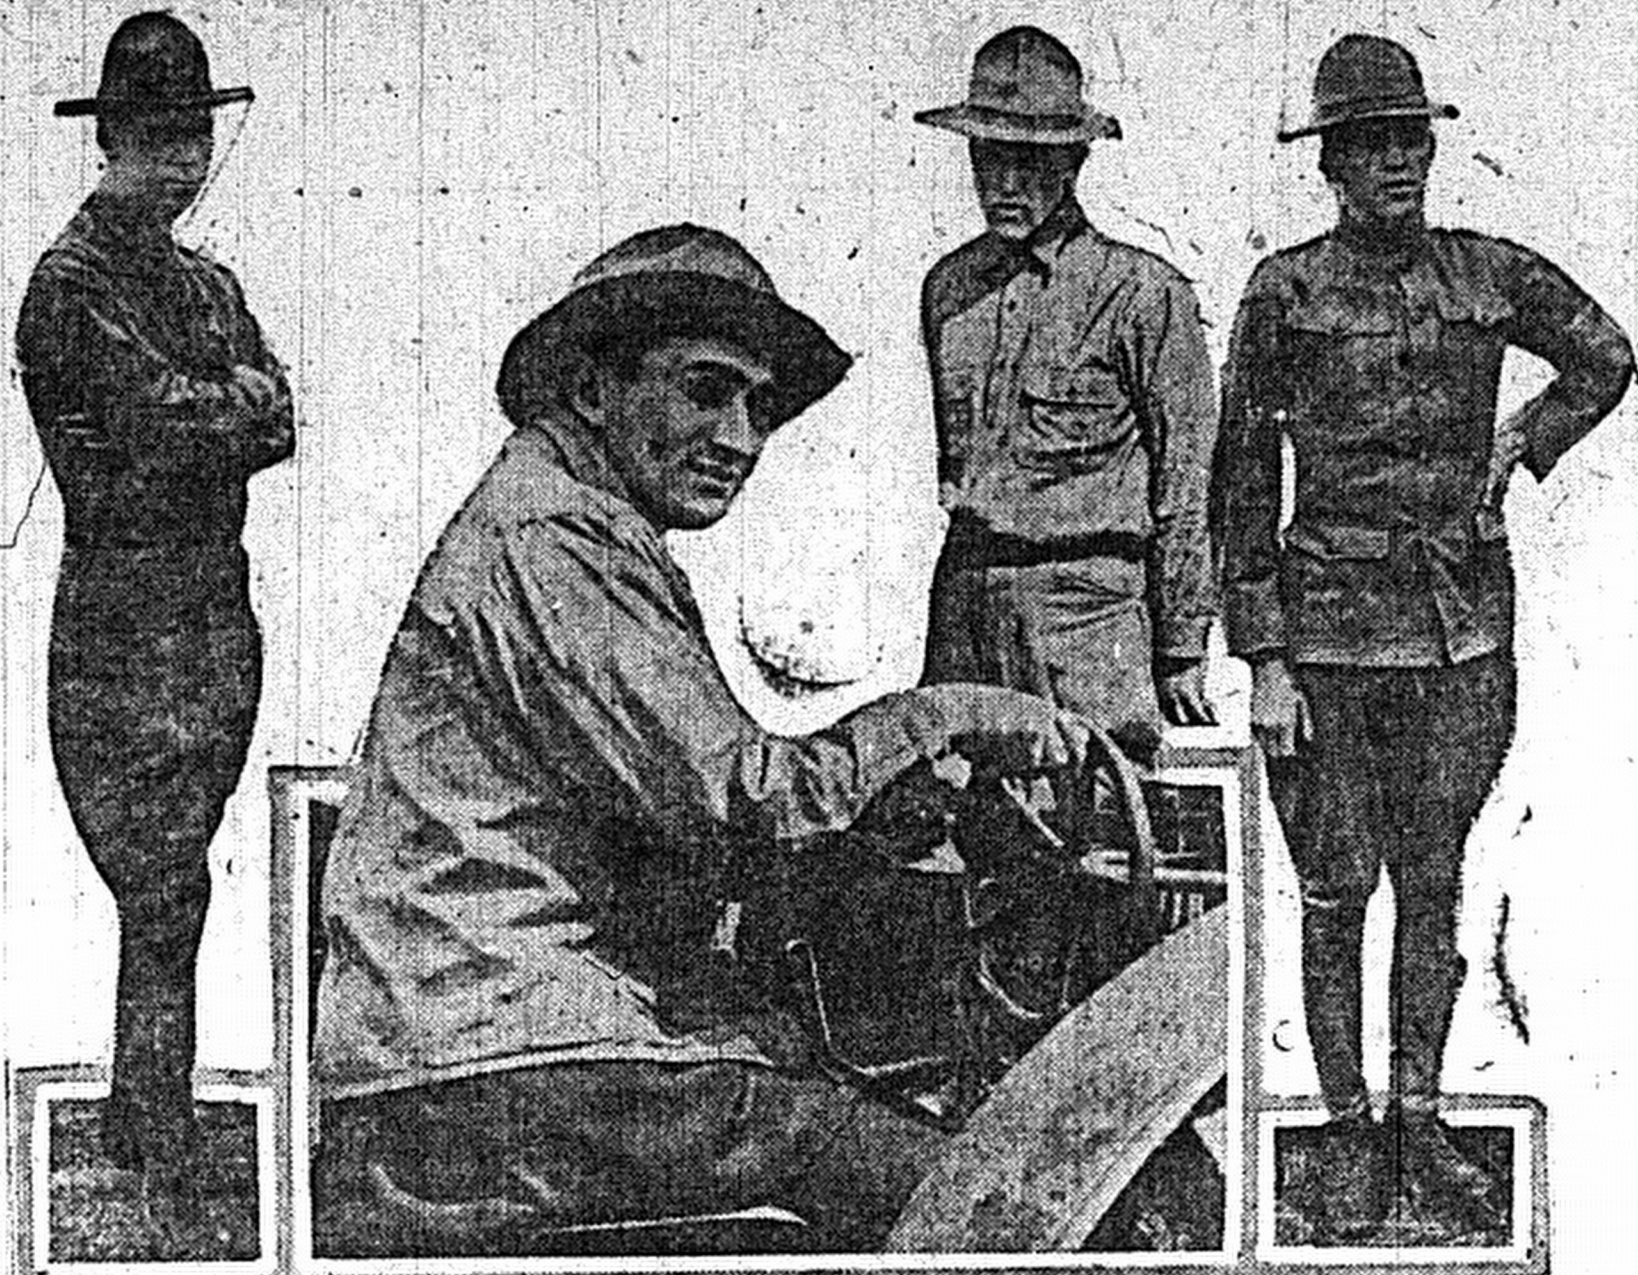

McNamara could have signed up  
with some Irish regiment for de-  
spite his fifty-odd years, he is still  
a "young bro" as a boy. Instead,  
he braved the submarines to fight  
under the flag that for 30 years he  
had called his own.

Michael has a bit of the stuff of  
which loyal Americans and heroes  
are made.

of more than 1,500 tons, one under  
that size and three fishing boats,

ships were unsuccessfully attacked  
during the same period, while 1,034  
vessels of all nations entered French  
ports and 1,015 left.

Sun and Wind Bring Out Ugly Spots.  
How to Remove Easily.

Here's a chance, Miss Freckle-face,  
to try a remedy for freckles with the  
guarantee of a reliable dealer that it  
will not cost you a penny unless it  
removes the freckles; while if it does  
give you a clear complexion the ex-  
pense is trifling.

Simply get an ounce of othine—  
double strength—from any drugist  
and a few applications should show  
you how easy it is to rid yourself  
of the homely freckles and get a  
beautiful complexion. Rarely is more  
than one ounce needed for the worst  
case.

Be sure to ask the drugist for the  
double strength othine as this is the  
description sold under the guaran-  
tee of money back if it fails to re-  
move freckles.—Adv.

## CURB FT. SHERIDAN GUESTS

Fort Sheridan, June 15.—Visitors to  
the reserve officers' training camp  
here on other days than Saturday and  
Sunday are not wanted. At a meet-  
ing of the regular officers last night  
the instructors were told to notify  
their students that each time a vis-  
itor calls on a "prohibited day," a  
black mark will go down against the  
student, not on paper, but in the  
mind of the regular army captain who  
one called on belongs. There are no  
sentries to keep visitors away, and  
this method was devised to discour-  
age visitors at a time when the at-  
tention of the students is required at  
their tasks.

## Aurora Society News

"Well, well, it's pretty nice," it's certainly pretty nice," murmured dear old "Dad" Weston, W. H. S. Weston of the gas company. He said it and many other words in a sort of surprised tone this morning as it became apparent to him that many had recalled the fact that today marked the sixtieth wedding anniversary of himself and his handsome grey-haired wife.

Mr. and Mrs. Weston were sitting quietly in their home on the second floor of 34 Fox street awaiting the time when they were to go to the home of their son, Clifford Weston, for luncheon. Suddenly there came a knock at the door and in walked the first of the great delegation of officers and employees of the Western United Gas & Electric Co. both of general and local offices. This man whose association with the gas company covers a period of nearly fifty years, was honored by Congressman I. C. Conley, president of the company to the extent of an order which gave leave of absence to every employee of the gas company in the city for the purpose of calling and extending congratulations to him and his wife. Not only that but upon a table rested a gift which represented not only material wealth, but the affection which brought forth tears to the eyes of the aged man—a large card upon which was inscribed an inscription showing that the gift was from the company and associated employees.

It was an occasion not soon to be forgotten—the quiet little gentleman with his kind eyes and his softly waving grey hair, surrounded by young men not only known to "Dad" Weston and old, but for the history of the company's growth from the first gas pipe to the last meter, but has also the sincerity of heart which wins deep love from his gas company associates down to the youngest "trouble shooter" in the organization. Miss Helen O'Meara, the auditor of the company, William Willitt, assistant general manager, Fred Pierce, superintendent of the electric department, Frank Robinson, manager of the local office, and other officers of the company were present, the fact that several of the young girl employees threw their arms around his neck and kissed him heartily.

William Weston married Sarah Lee way back in 1857, the marriage taking place in Chester, Vt. After coming east they lived in Galesburg, where Mr. Weston was employed with the late Maj. Richard Whitting in the gas business, and when Major Whitting and the late I. E. Copley built the Aurora gas works—Mr. Weston came to Aurora and went through the entire experience from ditch to the gas mantle. He is now 84 years of age, his handsome, well preserved wife, 81. He is in good health to the joy of the gas employees of years' association who watched his brave struggle with pneumonia a number of years ago and his return to health. His family life is singularly happy, not the least pleasant feature of today's celebration being the gathering of the entire family at dinner tonight at the home of his daughter and husband, Mr. and Mrs. Frank Mermer.

**Attended Graduation.**  
Mr. and Mrs. Fred Negro of College avenue attended the commencement exercises of the Chicago Musical college in the auditorium, Chicago, last evening. Their son, Harry, band leader at Moonshoe, graduated in the department of cornet, harmony and composition. The graduation was

witnessed also by a number of Chicago relatives who watched this too-er receive a certificate entitling him to become an even better tool.

**Black Place Women Meet.**  
The Women's society of the Park Place Baptist church met yesterday at the home of Mrs. Anna Kehn in Illinois avenue. Mrs. Edward Copelin assisted. Mrs. George Elsenhuth had charge of the devotional service. Mrs. T. E. Jones read two articles "Heroism in the Christian Conquest" and "Peace and the Kingdom" while two readings were given by Grace Pearce. A social hour followed with refreshments.

**Red Cross Unit.**  
The women of Trinity church have formed a Red Cross unit and will meet in the parish house every other Wednesday to sew. The first meeting was held Wednesday with 50 women of the church present. The Rev. F. E. Brandt presided and a talk was given by Mrs. Sarah Fritz. Miss Fanny Howe was elected chairman; Mrs. George Dient, vice-chairman; Miss Willa Hoag, secretary; and Mrs. John Pindley, treasurer. All day meetings will be held with luncheons served at noon.

**For Miss Pollin.**  
Miss Olga Koerfer entertained last evening in honor of Miss Ruth Pollin who is to be married soon. Five hundred was played, high score being won by Miss Madeline Heinz and all the cut by Miss Loretta Pollin.

**Loyal Twelve Meet.**  
Mrs. Frank Chapin, who has often substituted at cards with the Loyal Twelve club, entertained the members yesterday at her home in South avenue. At card Mrs. C. P. Francis, Mrs. Samuel Abbott and Mrs. William Henderson won the scores. Luncheon was served later. Mrs. Abbott, who has also substituted many times, will entertain the club in two weeks.

**Galeana Boulevard M. E. Church.**  
The Women's Foreign Missionary society of the Galeana Boulevard Methodist church met with Mrs. L. R. McCreery in Spruce street yesterday. Mrs. L. Banker had charge of the devotional services after which Mrs. George Davidson sang two solos. Mrs. E. J. Gunn being absent, the Rev. D. D. Vaughan took her place on the program and gave a talk on "The Missionaries." Mr. Vaughan stated that a movement is under way to have the missionaries return after five years' service instead of seven owing to the extreme hardships which they have to endure.

**For Dewey Lake Fund.**  
The young girls of the Y. W. C. A. are to give two clever plays this evening in the Y. W. C. A. auditorium for the purpose of raising funds for the annual meeting at Dewey lake. The little plays are "A Perplexing Situation" and "How a Woman Keeps a Secret." Miss Gladys Jennings, accompanied by Miss Clara Ernst, will sing.

**One O'clock Luncheon.**  
Mrs. Fred Simpson of Downers Grove, formerly of Aurora, gave a luncheon yesterday. Among the

guests from Aurora were Mrs. Ralph Poucher, Mrs. John Scholts, Mrs. William Burkhardt, Mrs. Ralph White and Miss Lea Taylor.

**Informal at Country Club.**  
The regular informal dancing party will be held at the Country club Saturday evening. These informal dances seem to be immensely popular.

**Bridge Party.**  
Mrs. S. E. Miller entertained a few guests informally at bridge Wednesday afternoon. Tea was served at 5 o'clock.

**May Go Away.**  
Mr. and Mrs. Clyde Hall, whose daughter Sybil has been in failing health for some time, have been contemplating taking her to Arizona, although this has not been definitely decided. Sybil is a very dear little girl, a member of the West High graduating class, and a wide circle of friends long for her recovery.

**The Navy League.**  
The woman's section of the navy league have most business-like headquarters in the police garage, with long cutting tables, sewing machines, information desk, etc., and here everybody may go to work, or may take work home from said headquarters. As it most decidedly requires money to buy flannel, wool, etc., it is extremely desired that people come to headquarters, prepared to part with small sums of money for said purchases. Should people about Aurora be approached by those furthering the Navy league, it is urged that said people remember that the country is in a state of war and that the navy boys must be equipped.

**The Red Cross Shop.**  
The Red Cross shop was open today, and will be hereafter both Wednesday and Fridays. It was impossible to secure any information this afternoon as to the same, as the answer was given in several instances that "Mrs. So and So is too busy to come to the phone." Reporters, however, willing, are not mind readers, and Red Cross shop people and all sorts of people should remember that what is sauce for the goose is sauce for the gander, and that where help of the newspaper is desired and received, proper aid should be given. This much is true—everybody is beginning to realize that the country is fighting—that some of the boys are already across the water—others going if not on the way, and that now is no time for anybody to sit back and register lack of interest.

**Entertain Bricks-Elect.**  
Miss Katherine Karcher, whose marriage to Paul Bricks, will take place June 27, at the Big Woods church, was given a granite shower last evening at her home in Mitchell road. There were cards and games, the scores going to Mrs. Peter DeKing. Matthew Schweichert, Miss Rose Michaels and Miss Margaret Welland.

**Juvenile Party.**  
The Epworth league of the First Methodist church will have a juvenile party this evening in the church parlors. All leaders and friends are invited to come, wearing juvenile costumes.

**One O'clock Luncheon.**  
Mrs. Fred Simpson of Downers Grove, formerly of Aurora, gave a luncheon yesterday. Among the

Wallace Denney was given a charming Wallace Nutting picture. By the way, it would seem that Wallace must be painting nights and Sunday mornings to meet the command.

**House and Garden Club.**  
The House and Garden club held yesterday with Mrs. H. J. Lombard in Liberty street. Mrs. James A. Carney gave a good report of the recent Kane council, referring to the plan to hold a Kane county pageant in 1918. It was reported that the House and Garden club will have charge of the spring garden contest, to be held at the Y. W. C. A. June 30. Mrs. J. H. Bliss, Mrs. E. C. Pratt and Mrs. E. F. Conklin constitute a committee, while Mrs. Conklin will have charge of the House and Garden work during the summer. There were Red Cross talks as well as a number of household hints, including the fact that mosquito netting basted over an unusually sizeable hole in a stocking, can be used as a foundation for the interweaving of darning cotton and that an open meshed veil can be used in the same way for silk thread in a silk stocking, although they do say that a postage stamp is quicker. The club will abandon the regular programs during the summer and will carry on Red Cross work.

**For Miss Denney.**  
Miss Ellen Fagerholm, who is to marry Guy Weaver in the near future, entertained the young woman employees of the Richards-Wilcox Manufacturing company at her home Thursday evening. The evening was spent with music, the guests also enjoying the contents of the "hope box," pretty articles for the new home. The date of the wedding, June 20, was made known by means of small cards in the form of a rose, the date being written beneath one petal.

**For Miss Hagner.**  
Miss Anna Hagner whose wedding occurs June 20 was entertained Wednesday evening by Miss Emma Smith. There were games and music and later a mock wedding. Miss Emma Smith was the clergyman, Miss Clara Schoeberlein bride, Miss Pearl Augustin groom. Miss Freda Sebastian bridesmaid. Miss Agnes Hopkins and Miss Hazel Newton flower girls. Miss Hagner was given a granite set. Luncheon was served.

**Pined for Indecent Exposure.**  
John Riley, 29 years old, of Chicago was arrested at the Schurz hotel last night at 11 o'clock by Patrolman Mader. He was charged with indecent exposure and was fined \$3 and costs by Police Magistrate Barlow this morning.

## SCHOOL SAVES OUR DEMOCRACY

U. S. Form of Government Would Fall but for Education, Kessinger Says.

SPEAKS TO E. HIGH CLASS

There never was a class graduated on the eve of such a momentous time. Senator Harold E. Kessinger said last night in addressing the 75 graduates of East High school. "Never since the first class graduated in 1866, 51 years ago, just one year after the civil war, have such great responsibilities been thrust upon the shoulders of young people ready to take their places, out among the men and women doing the work of the world, as confront our country today. "These young men and women are no longer boys and girls. They are practically men and women who are ready to take their places in the ranks of the world's workers, and tonight as we remember the condition of our country, remember the great problems and battles before us, as we think of the first class of this school graduating one year after the war of the rebellion, this thought comes to our mind, that the average age of the union soldier in the civil war was 19, that there were 200,000 young soldiers 16 years old, 25,000 drummer boys 12 years old.

Dreams Best Part of Life. "There is no more inspiring or beautiful sight than a class of young men and women just graduating with the great power of life stretching out before them. If any of the dreams that the rest of us have dreamed would come true in our life have been realized, we hope they may be realized by them. We have laws in our country against killing a man, but I think there is one thing worse—to kill the ideal, the ambition and the hope in the mind of the boy or girl, because when you take hope and ambition out of life, all men and women may keep on living, the best part of them is dead. "There is nothing like friendship in the public school and high school. Life doesn't amount to much without friends. All their year life, whether you know much sunshine or experience stormy weather, there will be a call in your heart that you can't deny, because you have gone to school together.

There are five institutions that these young men and women will have to deal with, that all men and all women, of all times have had to deal with. These five things are: government, business, family, education, and religion. And they are independent upon each other. We can't do away with any one of them any more than we can do away with the four fingers and thumb of the hand.

There is one thing in America that makes the American different from the citizen, or such in any other country in the world, and that is this: In America it is not enough to know that every man will be skilled in some trade or an expert in some business. In addition every man is one thing more—he is a citizen.

Church and School Save Democracy. "Our form of government is not a perfect form just because it is a democracy. Such a form of government could be a very dangerous kind if it were not founded upon the church and the school. If the majority of the people in America were not literate, if they could not read and write, our form of government, instead of being the best, would be the worst in the world. There can be no permanent democracy in any land where the majority of the men and women of that land are not educated. It is important that the young men and women of our country have a part in directing the destiny of the state and nation. Our government is what it is because our people are what they are. It can be no better and it can be no more efficient than the majority of the people of our country.

Become American Citizens. "The sons and daughters of foreign people attend our public schools

but when these boys and girls leave the school, they have the love of free institutions stamped in their hearts but not as sons and daughters of Germany, Frenchmen or Englishmen, but as American citizens. "The greatest hope of democracy is that the people of all countries will know each other so well that war will be a thing of the past. If there is any hope for that, it is a universal public school system throughout the world where boys and girls of all classes and all religions study together. "America is the melting pot of the nations, and the one thing that has made America secure, the one thing that has solved the immigration problem. The greatest enemy that there can be to our people now is a man who would set church against church, race against race, or capital against labor. The greatest protection to it is our great American public school system.

"It is an absolute fact that there never was a time in all the history of this country that there were so many opportunities for training and so few opportunities for unskilled men. You must know some one thing and know it well. "All Can Become Specialists. "Any one who will study 20 minutes a day on one subject can become an expert in that line in 10 years. Greater than anything else is will power. If each one who wanted success would be willing to put forth the effort he would attain it. "I believe in every man and woman joining some church. The church cannot injure a man or woman. It makes them better. I belong to my mother's church. If you don't belong to any church, join the church of your mother."

Girls Glee Club Sings. The girls' glee club under the direction of Miss Margaret Pusk sang charmingly. A quartet composed of Gladys Battagaglia and Donald McDonald, piano; Miss Zoe Kinnaman, violin, and Mrs. Alice Doty Wernicke, organ, played two Tchaikowsky numbers, "Arabian Dance" and "Russian Dance" (from the Nutcracker Suite).

The diplomas were presented to the class by President M. O. Southworth. Principal K. D. Waldo gave a farewell talk to the class. The benediction was pronounced by Rev. George Courrier.

GREAT LAKES STATION INSPECTED BY ADMIRAL (By Associated Press Lead Wire.) Washington, D. C., June 15.—Admiral Benson, chief of naval operations, after a personal inspection of the Great Lakes Training station at Chicago, has reported Secretary Daniels that the conditions are very good and the morale excellent. Complaints had been made that the men were badly cared for.

## Is He a Citizen

Is this man a citizen of the United States? Deputy Circuit Charles Farnill of Geneva, of the naturalization bureau puts the question. The man was born in Germany and when 18 months old was brought to this country. His father died when he was 7 months old. When he was 27 months old, his mother married again and her second husband was a natural-born citizen of the United States. When his mother married the United States citizen she automatically became a citizen of the United States.

The son of the woman believed that after his mother became a citizen he also automatically became a citizen. When he voted at several elections and at a recent election was challenged. Mr. Farnill inquired of a federal naturalization official and was told that the man is a citizen by virtue of his mother's second marriage. Another naturalization official suggested that the man apply for citizenship and that when his case is heard he can tell his story and he will either have his case dismissed on the grounds that he is already a citizen or he will be granted citizenship papers.

## WHAT IT MEANS TO LACK CARD

Auroran Who Lacks Registration Credential Twice Picked Up.

HE BELONGS TO MILITIA

Andus Shipton of The Beacon-News is one person who really appreciates what it means to be a card man—man between the ages of 21 and 30 years inclusive, who has a card showing that he registered. Shipton who belongs to the national guard and did not have to register, was called upon in Beloit, Wis., to produce a card and again upon a train in Illinois. But for the fact that he found acquaintances who vouched for him and telephone lines which reach to Aurora, he would have had time for considerable reflection in Beloit and Woodstock jails.

Local authorities called upon Shipton for his card in Beloit, upon his home. A secret service man asked him to produce the card on a train. At Beloit, Shipton persuaded the folks that he was not "slacker." On the train, he did not have very good luck and was turned over to a deputy sheriff at Woodstock.

He knew the deputy but this was not sufficient. He had to get into communication by telephone with Captain Groom of the Third regiment supply company before he won his freedom. Shipton believes that the national guardsmen should have some sort of card to which they could

show when in civilian dress to prove their identity.

**Take Two Mexicans.**

Two Mexicans, track laborers employed by the Aurora, Elgin & Chicago railroad, and giving their residence as 210 Main street, Aurora, were taken into custody in Chicago yesterday by United States deputy marshals. Their names are Victoriano Lopez and Jose Sajero. Both claimed inability to read, write or speak the English language.

The two men were stopped on the street and ordered to produce registration cards. When they were unable to comply with the order they were taken before United States Commissioner Mason. Later they went to the election commissioner's office with deputy marshals where they were allowed to register. They were released on their own recognizance.

Chief of Police McCarty and Sheriff Richardson are receiving numerous complaints against men who are accused of being "slackers" but no arrests have been made. The birth records of the men are being investigated.

### MOTOR CAUSES FIRE

A 20-horse power electric motor which belongs to the city of Sandwich and which was being repaired at the electric shop of H. K. Taylor, in his basement at 54 North Broadway, set fire to that building this morning at 2:20 o'clock. The blaze in the basement was discovered by night Merchant Policeman William Conrad, who sent in a fire alarm.

The motor had been undergoing a "baking out" during the night. A wooden box on which it had been sitting caught fire and soon another box nearby was on fire. Flames began to spread. Woodwork in the basement was blazing when the night policeman saw the fire.

The fire was extinguished with chemicals by the fire department with a loss of about \$250.

## CIRCUS ROMANCE BREAKS BAREBACK RIDER'S HOME

**SELLS PHOTO PERFORMER  
WOODED, WED AND WANDERED  
AROUND THE LOT.**

John R. Fuller, a bareback rider with Sells-Floto's circus, has been sued for a divorce by Mrs. Arline P. Fuller, also a bareback rider, but with Edmund & Bailey. According to the bill, filed in Chicago yesterday, Fuller wooed, wed, and wandered in the circus lot. Mayme Saunders and Lola Haight are named as co-respondents by Mrs. Fuller. They are both circus performers.

Mrs. Fuller says her husband has refused to support her and is \$200 behind in payments for his son's education.

### FLOUR PRICE HIGHER

The potato and flour market remains firm, no material changes in prices on these commodities having taken effect all this week. Yesterday morning flour at wholesale was quoted in Aurora at \$15 per barrel and in the afternoon it went up to \$15.40 per barrel, a local wholesale dealer said this morning. Today four remains at \$15.40. Potatoes remain the same, \$2.80 per bushel, wholesale, a local produce dealer said this morning.

## Do You Know What Economy Is?

There is a lot of talk about economy these days and unless we stop to think we are likely to get the wrong idea of what economy really is. Doing without things is never economy, hoarding money is never economy. But prevention of waste and making every dollar do double duty is real economy. And we are glad that the Oxsul store is one of the few stores where your dollar will do double duty. "Ask your neighbor."

### From Boys with the Colors

Great Lakes, Ill., June 15.

Dear Editor:

Just a few lines to let you know how everything is at Great Lakes Training station. Everything is coming fine and dandy only for a little rain last night and this morning. The fun is after every rain, when you have to be sure-footed. Going to mess this morning quite a few fellows fell in the soft clay. I think you know how they fell. Everybody is washing this afternoon, the sun being out. I slipped and fell so my whereabouts are on the line.

We certainly are having the time of our lives. The gang comes around with a tent, fly and the fun begins. Pretty soon you see a fellow with a sack on his head. Then the word is: Stand by and heave ho. They heave you in the blanket or fly. It is a ride in the clouds. They toss you about twenty or twenty-five feet in the air. It's the most fun of all. I know, because I had it twice last night. We run one sailor around the whole camp before we caught him.

Here is the forces as they advance on the enemy. First comes the sappers (wheelbarrow) and followed by a lot of whooping salts. Then bringing up the rear are the "black gang" (firemen or coal heavers). Then the order is halt and stand by. The cooks and all petty-officers stay clear because they are the ones whom the gang prefers. Next we get some of the early-to-bed fellows and tie a string across their nose. Then tell them to get up and fall in for music. The result is they cannot rise.

This morning they took us over and gave us a medical bath, steaming the chambers and fed with different solutions. A cold shower followed. One fellow was rounding a corner on high gear when his feet wouldn't track. He skidded up against the wall and slid on his back for about ten feet. Then he had to go back for another bath.

We are getting the best of "eats." I have gained 11 pounds since I have been here. Looks as if we might be leaving pretty quick as we are getting put shipshape pretty fast. We were to sail for last Tuesday. But expect to go to now.

Send my best regards to Les Barber from "Rosy." Tell all those who expect to join the navy to shake a leg because they are nearly filled up here. Will have to close for this time and go to "chow" (supper). Best wishes to all.

Yours truly,

EUGENE V. (ROSY) ROSENBERG, Company K, First regiment, U. S. Naval Station, Great Lakes, Ill.

P. S.—Certainly enjoy reading The Beacon-News.

From Coach Breeman,

Jefferson Barracks, Mo.

They say that every day in the army is like Sunday on the farm. Well, I have spent many Sundays on the farm, but a fellow will never know when Sunday comes in the army. Sunday for Uncle Sam is no day of rest. We got up early this morning and had our uniforms checked-out to us.

Our worst days are over as we have passed the physical exam, been inoculated, vaccinated, and given our permanent quarters while we are here. All the boys passed the test, and we are still together. They are all in the same bunk house except me. I am right next to them with some friends from Chicago. We picked up a bunch of 12 fellows which hang around together.

The first few days were rather bad because of the confusion, but we use it better since we have gotten our uniforms. Hunch is some soldier in a suit. The army men give out shoes about two sizes larger than civilian shoes. We are thinking of putting him on the Miss it and give him a sail.

We have our first drill tomorrow. I bet it will be some awkward squad. Our boys are all inexperienced in the manual of arms. We have picked up a great many points since we located. We have found out not to tell an officer what we think of him, as we have seen a bunch sent to the guard house, put in fatigue clothes, and put to work with an armed guard over them.

We came down from Chicago in a day coach. It seemed more like a football trip except that the sergeant had more trouble keeping the fellows on the train than I had with

the football team. The train arrived at the barracks about 10 o'clock Friday morning. The first thing they did was to give us a towel and let us take a bath. The sergeant must have thought it was Saturday night.

Can you imagine the bunch we have going to bed at 8:30 Saturday night or getting up at 5 one Sunday morning? You could never imagine how much fresh air there is at 3 in the A. M. Chuck Day says it takes his mother two hours to get him up in the morning, but he only has to be called once here. When these army men speak you can always understand them. They speak in no uncertain terms. Some one said that army men knew but two languages—English and profane. These men are rather poor in English.

The Y. M. C. A. has a tent where we can play the piano, read or play the Victrola. It is certainly a nice place.

Aurora placed herself on the map last night. We were assigned coats in a bunk house, after supper. About 8:30 two hard guys came in and tried to take the cot away from Robertson. He yelled for two Aurora crew and 12 Auroraites sprang out of their coats in fighting clothes and ejected the birds. One fellow said later that if he ever got in trouble, all he would do would be to yell "Aurora" and he would feel safe. It is got some one before he gets you.

All rookies have to spend one day in the mess hall serving. I'll bet I will serve some soup somebody's back. We will make some bunch of potato peelers and pearl diggers.

One meets every kind of men here, but George and I are the only school teachers.

The Aurora boys are starting to cultivate moustaches. We are going to have our pictures taken and I will send you one. We will leave our hats on because they cut our hair, or rather, chewed it off. We look like a bunch of porcupines.

We leave here Tuesday for Texas and after a month of two we go across the pond. I hear the crowd cheering at the ball park so I think I will be leaving. The barracks team plays someone today.

Your friend,

A. L. BRENNEMAN.

P. S.—Tell Mrs. Merrick and all my friends hello for me. None of us have regretted that we have enlisted. In fact, we like it better

## Quitting Business SALE

The Store Is for Rent! The Fixtures for Sale! I am through. It is up to you to finish this stock in the next 30 days. I will simply say this is the greatest money-saving sale I have ever known on the World's Leading Pianos.

A cheap piano looks almost as attractive as the best piano made. Played skillfully—so to show its best points—it SOUNDS almost as well. The vital features which make a piano give long and satisfactory service are hidden in material and making—concealed from the gaze of any but the TRAINED Piano maker.

COULD YOU DISTINGUISH BETWEEN COTTON HAMMERS AND THOSE OF GOOD WOOL? Both give equally good tone when new. Cotton "crushes" and "picks" under the tap-tap of the hammer on the strings. Wool does not, but it costs too much to use in cheap pianos.

Could you distinguish between good stringing and poor between correct scale and one full of "breaks." Between a correctly designed and well regulated action and one sure to give trouble later?

Most people cannot—and that is why

**W**HEN a great sorrow befalls a household the bonds of relationship grow stronger. In the brilliant revival of half-forgotten memories, joys and griefs of early life stand forth on the screen of memory, to remind us of the close ties of family. And so it is with our nation in this time when our big American family is gathered in council.

¶ We count the cost, but we dare not shrink while we remember our traditions.

¶ Some will suffer physical agony, and no one of us may hope to escape untouched by sorrow. Hardly do we wish for such immunity. With the time for sacrifice at hand, suffering in forms which in normal times we dread will almost be welcomed.

¶ And yet there are limits beyond which it has not been granted to humanity to endure. Lest those limits be reached we seek now to prepare in ways which later opportunity may not offer.

¶ Friend and foe will find the men in whom the nation reposes its trust have not been wanting in the will and the courage to do their appointed tasks on field and sea. Nor shall those men find that the men and women with whom they place their hope for solace when they fall, shall have done less than their utmost to prepare for their tasks.

¶ To many a stout loyal heart the call of humanity and of country will be more prepotent than the sighs of those dependent upon them. Regardless of the fact that our Government seeks to absolve from risk of battle many of those who leave dependents, is there a man worthy of the Great Call of Country to whom some one does not, at least occasionally, look with confidence for some sort of necessary aid?

¶ Here in Aurora there may be many too young or too old or too weak to fight their own or their nation's battles, who will feel most heavily the merciless thrust depriving them of fond protection.

¶ Whatever else we may be doing to help our country, and whatever else we may be willing and waiting to do, let us not lose this opportunity to help along the work of the Red Cross.

¶ Let us realize that every penny contributed to it will ease the throb of pain in some human breast, somewhere, some time, in war or peace.

¶ Let us not stop our contributions at one dollar if we can give one dollar and one cent, nor at two dollars if we can give ten, nor at twenty-five dollars if we may, in fairness to ourselves, make it one hundred dollars.

¶ The men and women of this City and of America to whose wisdom we look for guidance in affairs of State, in affairs of religion, in affairs of science, in affairs of business, and in affairs of all other human activity, unite in saying:

### "This Is a Worthy Cause"

and if you and I need more authoritative endorsement, it is not lacking. To have faith we must have hope, to have hope we must have charity, and it has been said:

### The Greatest of These Is Charity

¶ There is no charity more practical than the work of the American Red Cross.

#### Just What the Red Cross Is

(Extracts from an address by H. J. HUI).

Since 1905, when congress specially chartered the American Red Cross, every resident—man, woman and child—in America is entitled to hold membership in it. The American Red Cross, while purely a volunteer organization, is officially designated by the government to supply the work of the army and navy medical corps, and to officially receive and distribute on behalf of the government all moneys and supplies required to relieve communities overwhelmed by disaster, and to cooperate thru its base hospitals and other military units, with the army and navy.

The machinery of the society interlocks closely with that of the government. The president of the society is the president of the United States, its treasurer is the federal comptroller of currency, the war department audits its accounts, the surgeon general of the United States medical corps and an admiral of the navy head its committees on military and naval relief.

In time of war the government takes over the equipment and personnel organized by the society, and every physician, nurse and officer on its roll is automatically given proper military rank.

No, you see, it is not a mere incidental piece of relief machinery which the American Red Cross is building.

Twenty-five movable base hospitals, each of them capable of providing for the needs of an army division of 20,000 men, have been organized during the past 12 months. Five have been provided for the navy. The equipment for these hospitals, costing something like \$1,000,000 each, has been provided and stored in orderly fashion, where it is instantly available. The trained personnel, consisting of 251 surgeons, pharmacists, dentists, nurses, assistant nurses, stretcher bearers, orderlies, clerks, hospital cooks, carpenters, etc., has been drawn from the strongest hospitals and Red Cross chapters in 25 of our great American cities, and, for a period of two years, is pledged to respond to the call of the government for active field service.

The American Red Cross is designated to take charge, under supervision of the medical corps, of all patients turned over to it in what we know as the second zone—the zone of the military base. Here, in the great base hospitals organized and equipped by the people in times of peace, the wounded soldier and sailor meet for the first time what is comparable to a regular hospital establishment. Here he receives expert surgical attention and the best care and nursing that a grateful people can provide. Letters from his dear ones at home are received and read to him here, and his letters home are written for him by clerks provided in the hospital.

Here he stays until well enough to be transported to one of the great general hospitals commandeered by the government, back many miles from the war front, or, until he is discharged to his home.

Let us build our machinery now commensurate with our other resources. No organization holding a membership of two or three hundred thousand can truly reflect the generous impulses of our people.

Japan has more than 2,000,000 members enrolled in her Red Cross. May there not be a vital connection between this fact and the fighting fitness of her armies and navies in her recent war? Germany had, at the outbreak of the war, nearly a million and a half members in her Red Cross. Does this not partially explain the fact that her military and civilian population have been cared for as no other nation in Europe has been cared for in this terrible war? Austria's Red Cross, with a membership of 355,000, broke down in the early stages of the war; her machinery was not adequate. While men died on the battlefield and in her hospitals, she had to stop, as God grant we may not be compelled to stop, to patch her machinery, to expand it, and to bring into being what every nation should have before the call to the flag goes out.

## WILSON WORKING FOR FOOD CONTROL

President Renews Efforts for  
Legislation Fixing Prices of  
Necessities of Life.

Retail Prices Jumped 9 per Cent on  
Average During March and  
April, a Record.

(By Associated Press Leased Wire.)

Washington, June 15.—President Wilson today renewed his efforts for early passage of the food control legislation. He conferred with Senator Martin, majority leader, and Senator Gore, chairman of the agriculture committee.

Senator Martin thought the food bills would not be acted on in the senate until it disposed of the war revenue bill, still in the hands of the finance committee.

Food Price Figures.  
Retail food prices in the United States jumped on an average 9 per cent, between March 15 and April 15, as shown in statistics compiled by the labor department. It was the sharpest advance in any one month since the beginning of the European war.

The heaviest increase was in flour, 15 per cent, bacon 15 per cent, and potatoes 14 per cent. Every article of food except coffee showed an advance. Relative price increases for some of the principal foods follows:

Meat Prices Higher.  
Sirloin steak 8 per cent, round steak and rib roast 9 per cent, pork chops 12 per cent, ham 9 per cent, lard 13

A very happy time was reported and before the children left for home they gave Lois a spoon. Lois Hartfield of Aurora was one of the guests.

There was quite a good attendance at the Red Cross meeting at the church Tuesday evening altho not so large as had been hoped, but no doubt the threatening weather kept some at home. Mrs. J. H. Bliss and Mrs. Fritz of Aurora were present, the former telling of the organization and the work it does, and assisted in organizing the local auxiliary unit; the latter showing samples of the work that the women are doing in their meetings. Dr. Claridge also talked for a time concerning Red Cross work. The fact that the lights went out and did not come on again for some time did not keep those present from forming an auxiliary. Dr. R. A. Claridge was elected president, Mrs. Lynn Phelps, secretary, and Wm. Lye, treasurer. A membership committee was appointed, consisting of E. D. Spencer, Charles Lovell, Mrs. E. H. Humiston, Maude Dadds and Mrs. Meda Flanagan. Mrs. E. D. Spencer is chairman of the committee on work with two more of her own choosing. Who they were could not be learned as

If rupture on one or both sides, see me this visit. No matter how long you have been ruptured, I will help you. Do not neglect your rupture if it is small and does not annoy you, because you are in danger of strangulation. Claude Petefish Heartily Indorses Tanlac For Aid It Gave His Mother.

Jacksonville, Ill., June 14.—Claude Petefish, well known farmer residing at Litchfield, Ill., near here, made the following statement on May 19, telling how his mother, Mrs. W. H. Petefish, was greatly aided by Tanlac, the celebrated new medicine.

"About four years ago, mother began having trouble with her stomach. Rheumatism bothered her, too. Her food never agreed with her. Especially in the mornings she suffered severe pains in the back and her sides.

"Well, sir, mother has taken only one bottle of Tanlac but just this morning she told me that she felt better now than she has for the past three months. The pains in her back and limbs are not nearly so severe. Her stomach is greatly improved. Mother wants other people to know of the good Tanlac has done her so that they may try the new medicine and receive the same benefits."

Tanlac, the Master Medicine, is especially beneficial for stomach, liver and kidney trouble, loss of appetite, catarrhal complaints, nervousness and the like.

Tanlac is being introduced and explained in Aurora at the Public Drug Store, New York and Broadway, in Geneva at Johnson's drug store; in Sandwich at Converse's Cash drug store; in St. Charles at Standt & Barger; in West Chicago at Center Drug Store.—Advertisement.

## PERSHING GOING TO FRONT AT ONCE

Round of Social Affairs in Paris to Be Out Short by American General.

Americans Attended at French Flying Venues—To See Fighting on Monday.

(The Associated Press Special Wire.) Paris, June 14.—Altho General Pershing's first day in Paris was naturally filled with overflows of social affairs he managed nevertheless to utilize odd moments for business. It is understood that he will soon leave for an extended trip to the front.

Following his attendance at the chamber of deputies the general and his staff motored to an aviation field to watch aerial evolution of French experts. The French aviators outdid themselves in performing spirals, loop the loops and other tricks that frankly astonished the Americans, who admitted afterwards that they had never seen such feats in aviation. After an hour with the aviators General Pershing returned to Paris and conferred with the minister of marine. He then rested briefly while the ever enthusiastic crowd waited patiently outside his hotel. After his rest he went to keep a dinner engagement with Minister of War Painleve.

Eager for Work. While both meetings with the ministers were largely of a social order it is understood that they afforded the American commander an opportunity to at least broach the work into which he and all his following are so eager to plunge.

General Pershing stole a brief period between his visits to Admiral Lacaze and M. Painleve to receive first the French and then the American newsmen. He consented, gradually but not too willingly, to be sketched from life by a young Parisian woman artist who worked as the correspondent pilled him with questions.

General Pershing spoke almost joyfully of the prospect of being able to take up his work immediately. It was characteristic that during his talk he never used the first person pronoun but always referred to "the engagements of a social character will largely take up tomorrow but the Americans are looking forward to settling down to work in earnest by Monday at the latest.

**Use Coconut Oil  
For Washing Hair**

If you want to keep your hair in good condition, be careful what you

wash it with water and prepared shampoo contain too much alkali. This dries the scalp, makes the hair brittle, and causes dandruff. Coconut oil (which is pure and entirely greaseless), is much better. It is not sticky, and you can use anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoons of gull oil will make the hair rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather will be rich and creamy, and you need very little of it. It is not sticky, and you can use anything else for shampooing, and it leaves the hair fine and silky, bright, fluffy and easy to manage.

You get multifold coconut oil at most any drug store. It is very cheap, and a few ounces will last for everyone in the family for months.

## FLAG PICTURES 3 GREAT FIGHTS

Striving Against British Tyranny, Slavery, German Autocracy, Rev. Alden Says.

### STIRS ELK FLAG DAY CROWD

(Continued from Page 1)

Here want that as little as any of us. "Because we have no hate and passion does not blind our eyes. We have entered this war very calmly. There has been more noise in France and England about our action than there has been here at home. But that does not mean that we will not fight to the last man and the last dollar. Life recently had a poem with four lines something like these: "We haven't much behind us. As to age or as to art. But we've got a splendid record. That we finish what we start." U. S. Endures Much.

"As we have had no hate, so have we had no haste. Nobody but our enemies will ever accuse us of having exceeded the speed limit. Early Americans wrote it in their declaration that mankind are more disposed to suffer while evils are sufferable than to right themselves by abolishing the forms to which they are accustomed. This epitomizes American history. America put up with much before she rose against the British throne. The north put up with much before she rose against the south. America has now put up with much before we entered the lists against German autocracy. But if the Kaiser mistook our patience for cowardice he may learn his error from the figures of our recent registration. Americans propose to resume European travel. Our men will have tickets to Berlin, not over but thru the German line.

"The ships they travel on will carry stripes in sight. But they will not be painted in the perpendicular. American stripes run the other way. And if the Kaiser looks carefully he will also see some stars. And if he doesn't look, he will see stars anyhow. Charity Doesn't Uphold Injustice. "Charity for a brother's fallings

does not mean that we must submit to unjust treatment. The Elk believes in the open hand of fellowship. But he believes also in the clenched fist of punishment for him who violates the quadruple obligation of charity, justice, brotherly love and fidelity.

"How can we love the Germany and yet make war on Germany? Can we not make it plain by this analogy? It is now generally conceded that the south never had a better friend than Abraham Lincoln. But he was compelled to make war on the south just the same and in that war to eliminate their pet institution. So the German people have no better friends than Americans but we are compelled to make war on Germany just the same because they foster an imperialism that is an enemy to civilization. Germany can write no treaty of peace that will engage the confidence of the world as any better than a scrap of paper. If it bears the name of Wilhelm. The Kaiser must go.

#### Three Consecrations.

"The three colors of the flag stood at first for three consecrations. To the Declaration of Independence our fathers pledged three things: 'Our lives, our fortunes, and our sacred honor.' The three colors of the flag will stand for the same three things.

"Lives were freely given in those early days. Men assumed every risk with no faltering. Think of Washington and what he stood to lose if failure came. How gleefully would the British have hung high the head of this audacious rebel if they could have won that war. Then think of the rank and file that followed him, poorly clothed, half-starved and barefoot in the winter snows. Such devotion is beyond price. It is what money cannot buy. Then turn to the civil war and you see the boys in blue, loyally following the weary road to the Appomattox court house undismayed by death, or Libby prison which was worse. Yes, let the red in the flag stand for life and the boys of Uncle Sam, soon on the fields of France, will vindicate the memory of their steepest starting fire of permanent devotion to the cause of liberty. American life has always been consecrated not only to the national faith, but to the welfare of humanity.

"American fortunes have always responded to humanity's cause in both war and peace. There have, of course, been individual traitors to all our professions but the nation has been true.

"Others have said we are money-mad. But there has never been a time when money stood above life and honor in the American character. Life, fortune and sacred honor. Two-thirds of what was pledged at first could not be reckoned in the terms of money. It is the same today.

"Wealth in the hands of an indi-

vidual, or a small group of greedy individuals, has not always been unselfish. We still have financial pirates. Selfish wealth filled its coffers on civil war speculation, and refilled them on the impure food and unsanitary camps of the Spanish war. My ever did. Selfish wealth would now debauch a nation by high prices on food and fuel but the nation will not condone the crime. It is the greed of individuals. There ought to be but one reason that such people are not in Leavenworth and that is that some other federal prison would be harder to reach from their place of residence.

#### For Freedom's Cause.

"The American nation has decided to draw funds for the expenses of our trip to victory. There's no use starting on such a trip without your pocketbook. Our letter of credit reads for seven billions. That ought at least to pay for our ticket on the ferry. It is a democratic credit and that means there are millions of people behind the billions of dollars. That is the meaning of the liberty loan.

"The American bandwagon is the fighting line. If you can't get on the bandwagon you can get on the bondwagon. If these bonds are not good at the end of this war the German will be ruling the world. Its bonds or bondage. Take your choice. Bonds pay interest. Bondage means indemnities which you will have to pay. If you can't get on the bandwagon there will not be anything left in America of the things for which the men and women of other days have striven and of which we talk so glibly on the Fourth of July. Suppose we make the blue, which is also red, represent American fortunes, pledged now as in the early days to the cause of human freedom.

"And now the word of America has been pledged. Let the pacifist keep still. He lifts his voice on high to a low purpose when to do what he demands would stain the honor of the nation. The pacifist is a poor loser. He wants to break up the game because he has not had his way. His methods belong to the other side of the Rio Grande.

"The pacifist now veils his attempts to hamper the government under an alleged demand for the peace terms of the nation. It is a thin disguise for treason. If he keeps up his braying much longer he will hear in no uncertain tones that the peace terms of the United States have not changed since the days of Ulysses S. Grant. They were then, and they are now. Unconditional surrender. That is what the letters 'U. S.' will stand for to the pacifist at home. That goes also for Berlin Bill.

"The crisis is on. The verdict has been rendered. The decision has been made. America is in the war.

Now every American must do one of two things. The American has no third choice. Every mother's son and every father's daughter of us all must either fight or back up the fighter, must join either the army or the army behind the army. If you can't fight, then fight. But if you can't fight, help somewhere else. The honor of America is at stake.

A touching tribute to the flag was paid by Elliott A. Pritchard on behalf of the Elks lodge, and a history of the banner given by Myron J. Tarble.

Patriotic airs featured the musical part of the program. "Columbia, the Gem of the Ocean" was exceptionally well rendered by Mrs. Flora Lindsay Kelley. Miss Miriam Moser delivered an eloquent recitation on the "Vanguard of the Flag." How the flag ever the defender of its citizens, entwined itself around J. Wilkes Booth and threw him after he slew Lincoln impressed people yet again and deeply.

John T. Downs, exalted ruler of the local chapter, assisted by the officers of the lodge, was in charge of the introductory exercises and the program.

## Healthy and Active at 80

MR. WILLIAM GILBERT

Mr. Gilbert is still able to conduct his daily business and says Duffy's is the secret of his old age and good health.

"I have just passed my 80th year and can safely say that I never felt better in my life. I am still conducting my place of business and feel as though I would love to let some of the old folks know the real secret of my old age and good health. It has been whiskey, but do not forget the name—Duffy's Pure Malt. You may print this so that those that say they cannot eat or sleep may enjoy this life as I have enjoyed mine for the last 80 years, and still hope to enjoy many more."—William Gilbert, Proprietor Parlor, 2565 Frankfort Avenue, Philadelphia, Penn'a.

## Duffy's Pure Malt Whiskey

Is a food tonic in liquid form which may easily be assimilated by the feeble digestive organs. Results from the judicious use of Duffy's Pure Malt Whiskey are notably good in the case of elderly people where it is desired to build up the strength, to stimulate the bodily functions and to improve the circulation of the blood. It is a life-sustaining agent in cases of emergency which no family medicine chest should be without.

## Secrets of the Russian Royal Family Revealed

The strangest story ever written is now appearing in the Chicago Sunday Examiner. It is the story of the hidden mysteries of the Imperial Russian Palace of the Romanoffs. The terrible revels, the midnight debauches, the scarlet crimes of the favorites of that great dynasty surpass the farthest stretch of the imagination.

### IN THIS SUNDAY'S

# Chicago Examiner

The Monk Ildor, confidant of the murdered Rasputin, tells the story of the blood-stained Orloff Diamond and of the great Russian collection of jewels now in the hands of the revolutionists.

And he also tells how the great Russian Ballet composing two thousand of the most beautiful girls in Russia has been virtually thrown upon the market without support. The Czar's fascination for dancers, his payment of Twenty Million Rubles a year for the support of these famous Russian beauties and the wild revels of this Court of Extravagance form such a story as has never been written before. ## Movie Notes

Those who have been fortunate enough to see advance showings of "The Mystery of No. 47," assert that Ralph Herz, the nationally known comedian, wins unusual laurels. It is a story written by J. Edgar Clouston, of English life and will prove, according to the betters, a delightful comedy drama with a series of surprises and a delightful love story. Others in the carefully-chosen cast in support of Mr. Herz include Nellie Hartley, Louise Valentine, Edgar Murray Jr., James Fulton, Fred Eckhart and Casson Ferguson.

The feature production to be made under the direction of Collin Campbell, and plans for which are now being completed, will be "The City of Purple Dreams," adapted by Gillson Willets from the book of the same title in Chicago, dealing with the meteoric career of a human derelict whose rapid rise thru sheer luck and inspiration to a position of wealth, forms the basis of a story that is filled with action and romance with plenty of real drama. The cast will be headed by Tom Rantschi, Fritz Brunette and Beale Lydon.

Interest has been excited as to the personnel of the comedy stars presented in the Hoyt comedies produced by the Selig company and released thru K. E. S. E. Miss Amy Dennis is among the youngest of motion picture stars, being aged 16 years. She is a Pennsylvania girl. Win. Pablos has starred in E. E. Rice's "The Silver Slipper," "An '1920'" with John Cort's "The Alaskan," was in vaudeville several seasons and also starred in burlesque. James Harris, another member of the team, was born in San Francisco, starred in "Right Belie," and was featured in vaudeville for eight years. He appeared in the Winter Garden show, "From Broadway to Paris," with Gertrude Hoffman, J. A. Richmond, director of the Selig-Hoyt comedies, has appeared in "Ben Hur," with Amelia Bingham, James E. Hackett, Henrietta Crossman and others. He has also directed motion picture comedies for several well-known companies before joining the Selig company.

The Exhibitor's Herald in its review of "The Lad and the Lady" claims the story good for a long run, support plenty, settings tasteful and photography very good. There are some exceptional bits of photographic beauty in this new Selig production. There are many places of lion life shown. Some desert scenes showing huge ridges of sand also are incorporated in the picture play. Because of the war, the type of picture that is being made is a fact that it has been well received with a pretty star in the lead. "The Lad and the Lady" should prove a profitable offering for exhibitors.

## Friendship of Benmore.

Director Al Green has just completed a two reel feature "The Friendship of Benmore" written by Maibelle Heikee Justice. Into this tale of the old northwest, Director Green has injected many little human touches and novel effects that will make it away above the ordinary short picture. The cast in it

## The Ever Appealing Marguerite

## WATERMAN

Waterman, Ill., June 15.—The Woman's Foreign Missionary society of the Methodist church held its annual picnic and out-door meeting this afternoon at the rural home of Mrs. Dell Fuller. Autos were provided for those who had no conveyances.

Miss Addie Woods went to Chicago on business Tuesday.

Children's day was observed in the Methodist church Sunday morning. The large congregation was surprised to see a beautiful Vermont marble baptismal font in front of the altar. Early in the program there was a time given to the baptism of children. Six babies were baptized. Before performing this ceremony the Rev. C. F. Graesser in the name of the church accepted the gift. It was presented by the Junior class, the Madamames Huff and Mrs. and Mrs. K. Carson as a memorial to their little daughter Katherine who died August 11.

The commencement exercises for the five graduates from the Waterman High school were held Thursday evening in the Methodist church. The church was prettily decorated in the class colors, lavender and white. The class motto was "Conquering and Still to Conquer." The church was crowded with the many friends of the graduates and the school. The program opened with a song, "The Goodbye," by the Girls Glee club under the direction of Miss Wells of Paw Paw. The club did some fine singing showing the work it
